

Wonderfully enjoying life with God's special gift Made

**A practical parenting
course for mums
with toddlers**

**Join us for seven
down-to-earth discussions filled
with advice and encouragement**

You'll need no convincing that your children are wonderfully made. But there are a whole heap of challenges that come with caring for young children—tiredness, loneliness, boredom and relationship stress to name a few.

Wonderfully Made is a short burst of encouragement for you as you face life with little ones. We'll be stimulated to share the burdens and joys of parenting with others, and to support one another in the important job of caring for, and raising small children. And as you think about how to survive and thrive, you'll also be introduced to some bigger questions about God and life.
